

LOGICAL THINKING

The proverb square

Find the proverb that makes up this block of letters. Letters that follow one another are always neighbours, so that a chain of letters appears once you have it right.

The example shows how it is done.

Solution: **PRACTICE MAKES PERFECT!**

Now it is your turn. A small hint to make it easier: the beginning is in the row marked with a star.

E	M	T	S	I
N	E	S	T	R
I	D	E	H	E
C	I	B	E	T
L	A	U	G	H ^(*)
